

EMERGI-LITE

JC Series

**Compact 6 and 12 Volts Steel Battery Units
Fully-automatic, labor-saving commercial battery unit**

The Emergi-lite JC Series of battery units incorporate a complete range of performance and labor-saving features, normally found only in higher capacity equipment. The JC Series is ideally suited for commercial applications where space and ease of installation are being considered.

Standard Features

- Compact steel cabinet with corrosion-resistant undercoating
- Standard finish is factory white; black is also available
- Removable front panel on cabinet provides easy access to spider knock-outs for junction box mounting
- Emergency heads with choice of: tungsten, quartz or MR16 halogen lamps
- Choice of sealed Lead-Calcium or Nickel-Cadmium batteries
- Solid-state pulse-type battery charger: current-limited, temperature-compensated, short-circuit proof and reverse-polarity protected
- Unit comes standard with electronic lockout
- Dual input voltage 120/277Vac
- Listed UL924
